

# Data Science Week – Engagement Learnings

Luke Edwards / Aditi Subramanya

*The Pawsey Supercomputing Centre is an unincorporated joint venture between*

*and proudly funded by*

 **DT+ HASS;**  **DT+ Mathematics;**  **DT+ Science**

Here are some authentic datasets collected by research scientists studying marine and coastal animal populations. Use them to develop your students' data science skills as they analyse the data and use it to answer questions related to real-life management issues.

These resources were developed in partnership with [Pawsey Supercomputing Centre](#) and [Western Australian Marine Science Institution \(WAMSI\) Kimberley Marine Research Program](#).

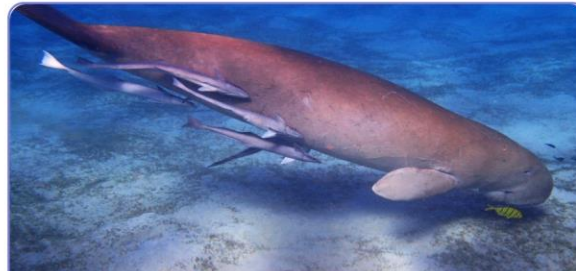

Saltwater crocodiles
