One step through the looking glass
and what we might find there

Presented by Helen Morgan Deputy-Director Research Strategy Planning and Performance
Sarah Brown Senior Manager, Research Performance
The University of Queensland, Office of the Deputy Vice-Chancellor (Research)
Research business intelligence: current landscape

- Grants and income
- Research outputs
- Collaboration and citation networks
- Topic/capability networks
What if we knew what was happening right now?
Supporting researchers at the point of need
UQ Research Data Manager

Metadata flowing through to our data warehouse

• 5,819 active user details
• academic/industry collaborators
• Early project metadata (titles, summaries, fields of research)
• storage allocation (#, location)
A change in the research BI landscape
