What we built is not interesting

What we discovered on the journey is

What we built is not interesting

What we discovered on the journey is

NeCTAR Restricted Regions:

- Who can access?
- How they access?
- What they access?

What we built is not interesting

What we discovered on the journey is

It's not a question of security

It's a question of compliance

Let's talk about fear

# It's not about eliminating risk...

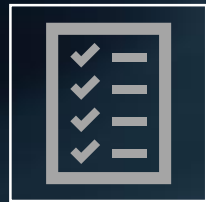

Balance cost of control vs the risk:  
~~Risk vs Reward~~, pain vs pain

# Right tool for the job
