Partnerships

- Government agencies
- (Local) Small to medium businesses
- Corporations
- Sport clubs
- Not for profit organisations

The screenshot shows the top navigation bar of the Swinburne University of Technology website. The logo is on the left, and the navigation menu includes: News, Events, Library, Alumni, Giving to Swinburne, Courses, Life at Swinburne, Collaboration and partnerships, Research, and International students. The main header area is dark with the text 'School of Business, Law and Entrepreneurship' in white. Below this is a mission statement: 'Our mission is to advance innovation, entrepreneurship and social impact through our career-ready graduates, industry-engaged research, and connecting people and technology.' A breadcrumb trail reads: Home > About > Our structure > Organisational structure > Schools and departments > School of Business, Law and Entrepreneurship. The main content area has two paragraphs: 'Our rich culture focusses on innovation, social responsibility, law and technology, and external engagement. We develop flexible, inclusive, relevant and highly engaged learning experiences to prepare students for a successful career.' and 'Importantly, we forge robust connections with industry partners such as Siemens, Bendigo Bank, Leo Cussens Institute and Medibank as well as government and community organisations across our teaching and research.' Below this is a section titled 'Our departments, centres and groups' with a grid of 11 items, each with an icon and a right-pointing arrow: Augmented Intelligence Group, Australian Graduate School of Entrepreneurship, Swinburne Law School, Department of Accounting, Economics and Finance, Department of Business Technology and Entrepreneurship, Department of Management and Marketing, Centre for Social Impact Swinburne, Customer Experience and Insight Research Group, Information Systems for Social Impact Research Group, Social and Environmental Sustainability in Organisations Research Group, and Sport Innovation Research Group.

School of Business, Law and Entrepreneurship

Our mission is to advance innovation, entrepreneurship and social impact through our career-ready graduates, industry-engaged research, and connecting people and technology.

Home > About > Our structure > Organisational structure > Schools and departments > School of Business, Law and Entrepreneurship

Our rich culture focusses on innovation, social responsibility, law and technology, and external engagement. We develop flexible, inclusive, relevant and highly engaged learning experiences to prepare students for a successful career.

Importantly, we forge robust connections with industry partners such as Siemens, Bendigo Bank, Leo Cussens Institute and Medibank as well as government and community organisations across our teaching and research.

Funded Activity Summary

Data Co-operative Platform for Social Impact and Wellbeing. The Data Cooperative (Co-Op) Platform for Social Impact and Wellbeing aims to make data-driven research and decision-making in the social sciences more effective and efficient by developing infrastructure to support data integration and harmonisation of diverse data resources. Social research relies on a vast array of data types and sources, both open and confidential, making data analysis complex and time-consuming. This project will drive innovation across a range of critical social issues that require integrated data for research and social innovation including healthcare, better outcomes for disadvantaged and vulnerable groups, resilient urban, rural and regional communities, and increasing our capacity to respond to climate change.

Funded Activity Details

Start Date: 01-05-2020

End Date: 31-12-2021

Funding Scheme: Linkage Infrastructure, Equipment and Facilities

Funding Amount: \$580,000.00

Funder: Australian Research Council

Research Contract Forms

Private research contracts and agreements include project details such as

- Collaborators
- Partner organisations
- Project description

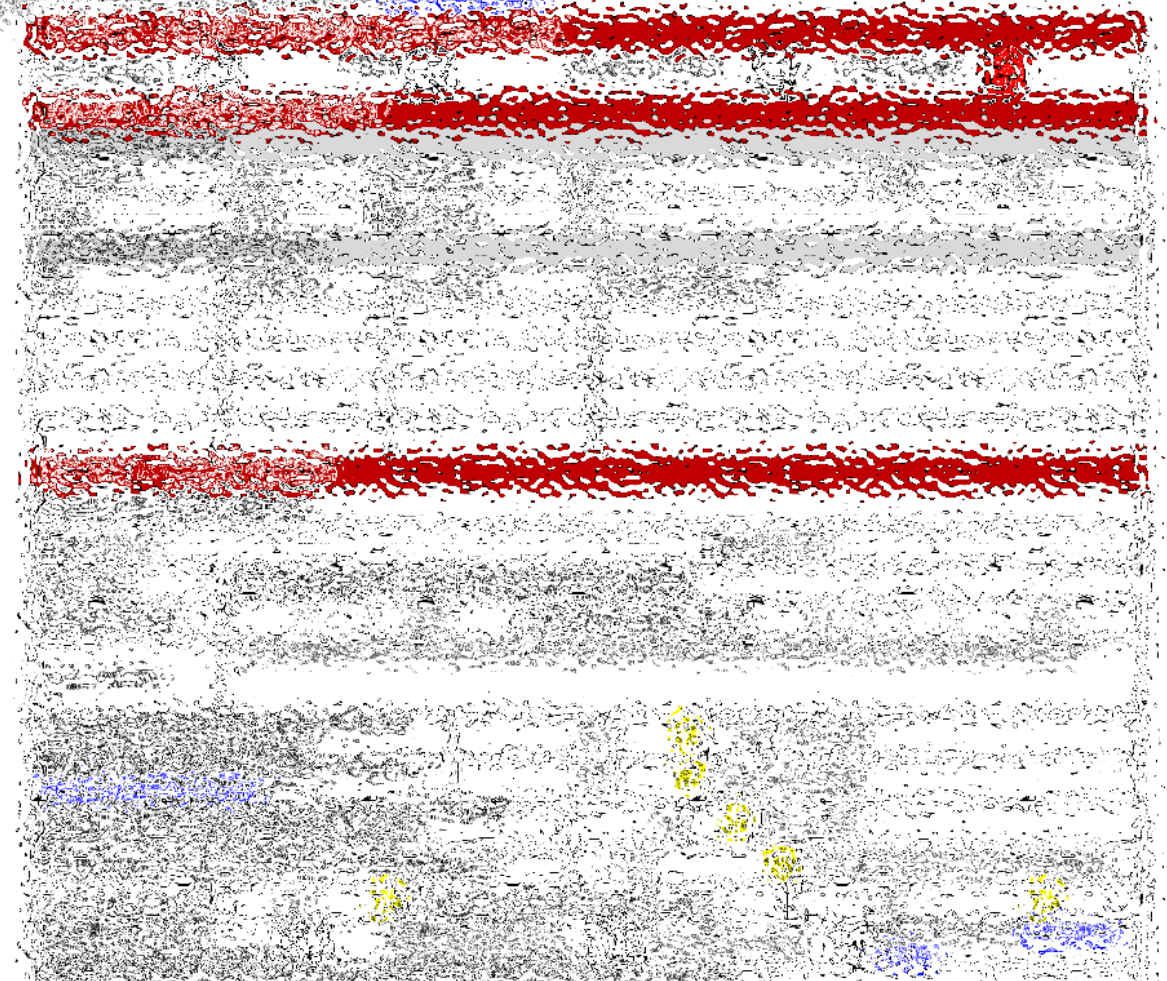

This form must be completed at the initiation of new research grant applications, tenders, or contracts. For grant applications and tenders, email the completed and signed form to resgrants@swin.edu.au. For contracts, email the PDF of the completed and signed form to rescontracts@swin.edu.au.

1. This form is **NOT required** for any of the following: internal schemes; confidentiality agreements, NDAs; ~~MOUs~~; or variations.
Templates for confidentiality agreements/NDAs, and checklists to guide you through the completion of these templates, can be found on the Governance, Legal and Integrity [wiki](#). Once you have completed the relevant template, please email it directly to rescontracts@swin.edu.au.
If you would like to vary an existing project, please email rescontracts@swin.edu.au for more information about the process for variations.

2. This form **MUST** be accompanied by the following documents:
 - A project plan, including information regarding required space, equipment and facilities; or a completed grant application.
 - The proposed budget printed from the [Budget Calculator Tool](#). More information on costing your research [here](#).

Note: Project plan template options are available on the Swinburne Research (SR) [intranet](#).

3. Examples of non-funded contracts where this form must be completed include master agreements, non-financial collaboration agreements, material transfer agreements, and ~~novations~~, that is where there is no cash funding coming to Swinburne or going out to another organisation from Swinburne.

8,000+ legal documents → classification

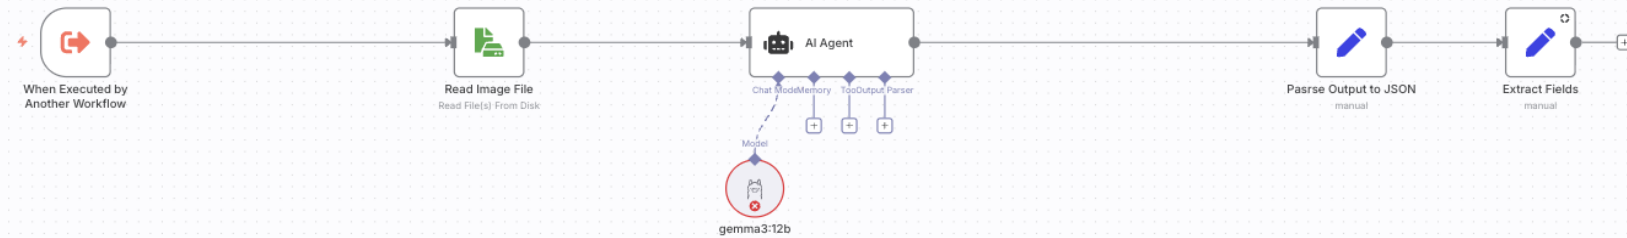

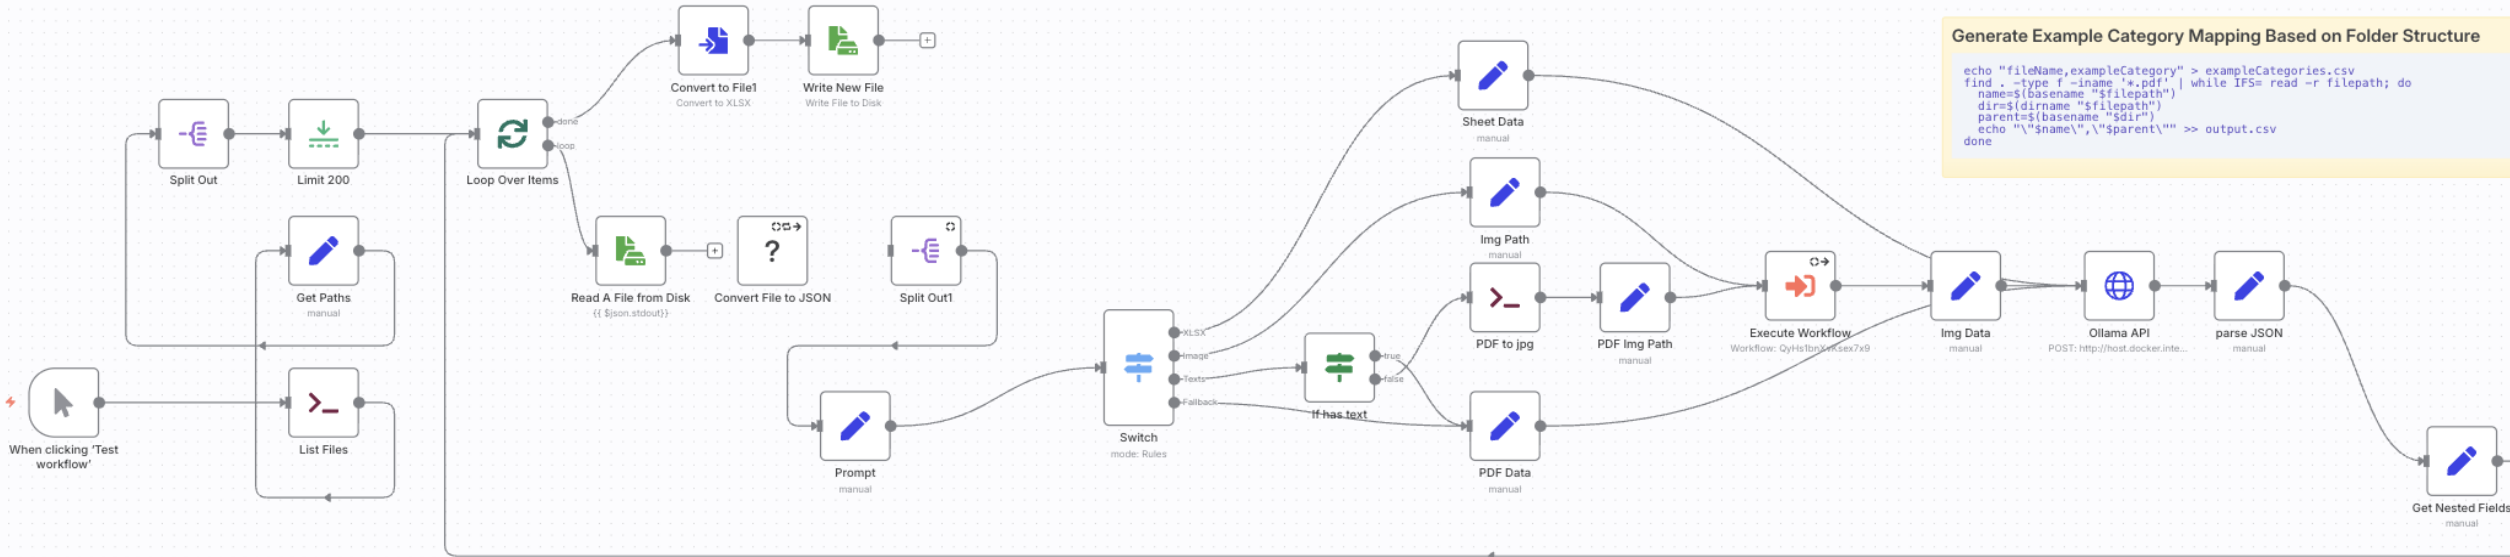

Process on HPC using n8n

- System Prompt Design Points**
- Expert on IP and research documentation
 - Use inclusion/exclusion criteria on Filename.
 - Research translation team background.
 - Score all categories.
 - One suggested category and one justification.
 - Example output in User Prompt
 - Output structure in System Prompt
 - Avoid "Lazy Score" where scores becomes 0 or 1 after a few runs.

Generate Example Category Mapping Based on Folder Structure

```

echo "fileName,exampleCategory" > exampleCategories.csv
find . -type f -iname '*.pdf' | while IFS= read -r filepath; do
name=$(basename "$filepath")
dir=$(dirname "$filepath")
parent=$(basename "$dir")
echo "\"$name\", \"$parent\"" >> output.csv
done
    
```

No PIDs: No Research Graph

Capital Health Network LTD?

Prompt (Part 1)

Find and list all *verifiable persistent identifiers (PIDs)* associated with the organisation named "**[Company Name]**".

Include only identifiers from authoritative registries:

- **ROR (Research Organization Registry)**
- **ISNI (International Standard Name Identifier)**
- **ABN (Australian Business Number, via ABN Lookup or Australian Business Register)**
- **DOI prefixes** (if the organisation registers or owns DOIs, e.g. via Crossref or DataCite)

Prompt (Part 2)

Instructions:

Search only in official or verifiable sources e.g., `ror.org`, `isni.org`, `abn.business.gov.au`, `crossref.org`, `datacite.org`.

Return each PID with its full identifier, registry name, and source URL.

If no identifier is found, state "Not found in registry."

Do **not** infer or guess identifiers.

Do **not** list unrelated numbers, internal IDs, or fabricated PIDs.

Output format (JSON):

```
